

“ R U N F O R T H E P R I Z E ”

My son Johnny went to be with the Lord in 2007. Persevering through years of kidney dialysis, Johnny never gave up and inspired his family, friends and youth group to “run for the prize” of living an overcoming life. His heart was to see the youth of this generation look beyond themselves and bring hope and love to the hurting and lost. We started the Gockle Run with the vision of bringing together not only the youth of New Life Christian Fellowship and Providence School, but of Jacksonville as a place where they can raise support for those times when they reach out to our community and to the nations of this world.

This is really a “pay it forward” event. We want to see youth groups encourage their young people to run or walk the Gockle Run to help someone else go to youth camp, on a missions trip and local outreaches, or to provide funds for items they need for these outreaches

The Hohman family thanks you for your support and wants you to have the best run ever!

God bless you,  
Donna Hohman

Dear Participant,

The Gockle 5K Run/Walk honors the memory of a special young man who blessed our youth group with his humor, vision, and passion for the Lord Jesus Christ.

The Gockle Run has been highly successful involving approximately 350 participants as well as completely reaching our fundraising objectives. This exciting and family-oriented run is continually developing into a major community event, involving many local businesses.

It is with a grateful heart that I thank you for your participation. Please know that you will, in turn, be blessed in the process!

Sincerely,

**Ferrill Galloway**

## COURSE description

The Gockle 5K Run/Walk is unique among Jacksonville racing events. The course is almost entirely cross-country and winds through wooded areas and around a lake on the campus of New Life Christian Fellowship and Providence School. The course is well marked and mostly flat, ensuring excellent racing times. The one-mile fun run begins and ends on one of the practice fields.
